What is hidden behind Quakers & Mormons? The Answer cannot be revealed so easily, but it has to be pursued, sought and wanted so deeply as the Spirit of a man in embracing a ne Faith. A True Belief that covers the entire human emotional corpus leading it to a complete conviction and obedience.

That's how the simplest words' connections become Sermons and rhythmic hits on the sampler surface turn into Liturgy. The point is catching the Concept, turn it into an Idea, and pursue this to the end. The importance of Concepts and Ideas makes our priests not to submit themselves to the common rules of appearance, in fact, they dress long monk like suit and they always hide their faces. What is important is not the way we look but the Energy and The Idea we want to express.

With "EVOLVOTRON" our obscure priests want to reveal to their believers and disciples the True Word of what is really Human and of what is enclosed into the linear formula of begging and end.
 Is the End the real end? the answer is in Faith.

Quakers and Mormons is a Throat and two Fingers.
 "EVOLVOTRON" was produced by Quakers and Mormons and Riccardo Gamondi on that thin line between an unknown place supposedly based on the planet earth and Pontecurone (AL); recorded, mixed and mastered at "Fiscerprais" studio based in Pontecurone (AL) by Riccardo Gamondi (www.fiscerprais.com // info@fiscerprais.com).
 Released by "La Valigetta" (www.lavaligetta.it // lavaligetta@lavaligetta.it).
 Management by Michael di Genova at Metatron (www.metatongroup.com // mr.mdns@libero.it).
 Artwork and graphic Layout by Iacopo Gradassi (iacopo@sonsofvesta.it).

The Hand of he who was enlightened, was guided to write those Verses. His Throat to sing them.
 Mother Earth greatly helped in creating those Rhythms, and bestowed some human like fingers to play them.
 Nobody knows the real identity of Quakers and Mormons.
 Only their Verb is known.
