

Beat K

Self Titled

About

Beat K is a new, fresh electronic project heading from Europe, combining electronics, drums and beautiful synth sounds with fast and complex beats.

Drum machines and colorful keyboards, beats and smooth vocals moving between sweet dionysus worlds and winter fairytales.

The duo goes through different fields, loving a mellow approach to electronic music and mashing up an ethereal mood with a modern approach to keys and samples. Let's talk about home, melancholy and love with 'em <3
