About the release

Deer under Dollars & Cents are releasing a new Ep titled *Portraits*. The Ep will be available on Spotify, iTunes, Deezer, Soundcloud and Bandcamp. This Ep will be released with the single **Wild Eyes Lyric** Video available on YouTube on December the 1st (HK time).

"*Portraits*" is a series of imaginary stories that emerge from our experience as Hong Kong residents. It embraces contrasting characters... a middle age man, a six year old kid. Each song represents one piece of a big puzzle: the face of what Hong Kong is to us. Life here is a drama of an ancestral life structure struggling with the western post modern crisis. We start with a dissertation about immigration and we close with the face of the ambition. The sound of this EP glides from nostalgic to dramatic moments, all dressed with the strident electronic layers and the glimpse of string sections. We hope you enjoy it.

About the band

Deer is a Mexican duo based in Hong Kong; conformed by two musicians **Adriana Falcón** (Singer, Guitar) and **Miguel Bastida** (Key, Synths and Guitar). Mixing trip rock, industrial sounds and deep basses plus Adriana's powerful voice and the nostalgia in their lyrics. **Deer** have toured their hypnotic music throughout China, Japan, Taiwan, Korea, Malaysia, Vietnam, Russia, Spain and Estonia. And performing in some of the best music festivals around Asia such as **Clockenflap** (Hong Kong), **Zandari Festa** (Korea), **Wake Up Festival** (Taiwan) and **V-Rox** (Ru).
