

Josy and the Pony

Eponyme

A propos

After some singles, a first LP released in 2017 and about 150 gigs across Europe, Josy and her ponies are back with their new album "*Eponyme*" to be released on October 5, 2019 via labels **Rockerill** and **Freaksville**. As usual, Josy does not care about what people think. She makes the music she wants without thinking of money or success.

Feminists! Vegans! Beer Lovers! Here is your band!

"*Eponyme*" is inspired by the French sixties with some delicate shoegaze revival sounds and a real punk energy. The new album of Josy & Pony is singing about very serious matters (harassment, status of women, religious fundamentalism, political radicalism, unreachable dreams), but not like everybody else!
