About the release

Strange to see how your instincts always lead you to the same place. The «cave» was the place for the 3 members of **SURE** : a fantasized dancefloor where Post-Punk's grim could seamlessly mix with mainstream pop, and where hardcore fans could dance on a catchy beat.

But that frame was too precise to stand the test of time. Shades and balance changed the cave's space, as the tracks echoed in it's damp vaults. What if the cave wasn't just a den of iniquity, but a real shelter?

The choice of words can also reveal a different meaning than what you had in mind. The words of **SURE** thought they were talking about a present absurdity, while their mind was relentlessly heading towards a catastrophic future awaiting with open arms.

Thank god, the initial vision was failed.
